## Environment and Energy Usage Policy

### Introduction:

Adarsh College of Arts and Commerce is a part of Adarsh Vidya Prasarak Sanstha - One of the largest and oldest Educational Complex in Badlapur, is located on a lush green campus. The college aim to provide quality educational services while imparting a sense of commitment and responsibility amongst its students and staff towards creating a sustainable environment. The college strongly believes in the motto - 'Practice what you preach' while fostering ecological sensitivity amongst its various stakeholder groups - students being one of them. Policy implies exploring renewable energy resources to reduce the burden on the government and to find suitable natural resources as solutions to the energy crisis. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution.

Environment and Energy Policy shall be directed to develop the college into an Ecologically Sensitized Institution which works for development of today's generation with a promise of a better and sustainable tomorrow.

### Goals and Objectives :

#### Environment

- The College will attempt to train its personnel and develop knowledge of environmental issues and the environmental effects of its activities among academic staff, students, and other users.
- To create awareness pertaining to environment related issues.
- To develop ecological sensitivity amongst various stakeholder groups.
- To adopt and implement the Green and Clean Campus Policy in all the college activities and programmes
- To enhance biodiversity within the college campus
- To undertake tree plantation and tree plantation drive of native plants.
- To organise various programs, rallies for creating awareness about Environment in community.

#### Waste Management

- To promote systematic waste management in the college campus by adopting the 4R policy of waste management viz Reduce - Reuse - Recycle - Recover.
- To conduct various activities, workshops, competitions on 'Best out of Waste'
- Reducing the use of Plastic
- Organising drives for plastic collection, E waste management
- Minimizing paper waste by - reusing the back-side blank area whenever possible; providing and promoting the use of e-reading material; conducting recycle of paper drives.
- To place Waste-bins in the college campus at convenient locations

#### Energy Usage

- Encourage all stakeholders to be aware of the importance of energy conservation.
- To assess our energy usage and measure its impact on the environment.
- Installation of solar panels for harnessing solar energy to minimize energy cost and curtail the usage of non-renewable energy resources - as a part of proper energy management.
- To engage in dialogue with government agencies, municipal corporation, and actively work with the local organizations in the areas of environment, energy efficiency, and sustainable development

Website : [www.adarshcollege.avpskulgaon.net](http://www.adarshcollege.avpskulgaon.net)  
Tel. : 0251-2693692 Email : [adarshcollege@rediffmail.com](mailto:adarshcollege@rediffmail.com)

- Use LED or compact fluorescent bulbs as much as possible.
- To create awareness about energy conservation. Switch off lights, fans in conference rooms, classrooms, lecture halls when they are not in use.
- Air conditioners in seminar halls should only be used during programs/events approved by the Principal/Management
- Regular servicing of Air conditioners

#### Water management

- To promote water management practices in the college campus.
- Regular maintenance of Coolers, Repair and replacing faulty water taps on regular basis
- Building, maintaining mechanism for reuse of waste water and transforming it into potable water
- Rain water harvesting system to be implemented and maintained

#### **Engagement through Collaborations:**

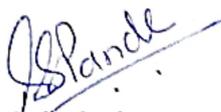

- The college shall actively collaborate with local authorities, non-governmental organizations, government agencies, the Municipal Corporation, other colleges in the vicinity, for undertaking environmental protection and ecological initiatives.
- The college shall conduct many ecological sensitivity activities at community level
- The college shall enter into MOUs with other organizations for environment protection and conservation activities

#### **Observation and documentation**

The college's energy and environmental performance will be regularly assessed, and reports will be generated accordingly. The college community will be informed of developments.

#### **Review and continuous Improvement**

This policy will be reviewed often to make sure it remains in line with new recommendations and opportunities for environmental stewardship.

## ADARSH COLLEGE OF ARTS & COMMERCE

KULGAON - BADLAPUR

(Permanently Affiliated to the University of Mumbai and recognized under 2(f) and 12 B of UGC Act 1956)

NAAC Re-accredited B++ Grade with CGPA 2.84 (2017-2022)

**Vision**

The vision of Adarsh College is to be socially oriented eminent educational institute nurturing talent and advancing knowledge in a vibrant learning environment having quest for quality.

**Mission**

- ◆ To impart quality educational services as per changing needs of the time.
- ◆ To make education all inclusive for students in and around Badlapur for socially underprivileged classes.
- ◆ To transmit students' potential into life-making by encouraging them to learn in competitive atmosphere.
- ◆ To aim at making good citizens of India having deep rooted Indian Culture.

**Objectives**

- ◆ To impart quality education in a competitive spirit to all classes of students in the society in the discipline chosen by them.
- ◆ To provide opportunities enabling students explore their latent capacities for personality development.
- ◆ To prepare them for life by giving education 'beyond class rooms' through extension and associations' activities and development of skills.
- ◆ To imbibe Indian Tradition, culture & value system in the minds of students.
- ◆ To promote excellence through Educational Innovative Programs.
- ◆ To promote discipline and punctuality, obedience and social commitment with patriotism.

**Vision, mission & Objectives of the institution**

## **1 EXECUTIVE SUMMARY –**

### **1.1 Introduction:**

Adarsh college is a commerce & arts college in Badlapur. It has college building, canteen, paved as well as open area, plantation & playing ground.

### **1.2 Scope of the survey:**

The scope includes survey of the environmental aspects related to the college and suggest plan to reduce the impact on the environmental aspects studied.

### **1.3 Objectives:**

The objectives of the survey are to evaluate the present environmental status, to suggest a plan to reduce the impact on the environment.

### **1.4 Baseline Environmental Conditions:**

The baseline environmental conditions in the study area covering physical and biological components were studied with the help of information collected through discussion with the local authorities and detail survey of the area.

### **1.5 Findings:**

Preliminary information about the present status of the environmental conditions was collected. After getting the baseline data, it was analyzed for simple workable steps which would lead to reduce the impact on the environment; e.g. use of treated water for non-potable purpose will reduce the water requirement by about 30%, and will also contribute to reduce the electricity consumption, etc.

### **1.6 Environment impact reduction plan:**

The environmental management measures are suggested for reduction of adverse impact on identified environmental aspects. The plan gives information about the suggestions and its advantage and payback period.

Also, 'Environmental policy' can be prepared after discussion with the decision makers in the management.

**Dr. Umesh Mundlye**

**M.Sc., Ph.D.**

<b>2</b>	<b>Introduction</b>
<b>2.1</b>	<b>Scope of work</b>
<b>2.2</b>	<b>Objectives</b>
<b>2.3</b>	<b>Study area and period</b>
<b>3</b>	<b>Baseline environmental survey</b>
<b>4</b>	<b>Findings</b>
<b>5</b>	<b>Suggestions</b>
<b>6</b>	<b>Annexures</b>

## **2 Introduction –**

Adarsh college is well known college for its educational and extra-curricular activities. It is situated in Badlapur. It has NSS unit which is keen in implementing projects which add value to lives of human beings as well as the environment.

To know about the impact of the activities and scope to reduce the impact on environment, the current survey has been undertaken.

### **2.1 Scope of Survey -**

The scope of Survey included following environmental aspects:

Water - Water Use and Quality (Ground Water and Surface Water)

Electrical energy

Air

Soil

Bio-diversity - (Diversity of flora and fauna in the study area.)

Noise

Waste Management

### **2.2 Objectives -**

- Evaluation of present environmental status.
- Developing plan for reduction of the impact on the environment

### **2.3 Study Area and Period**

The college premise was considered as the study area. A field survey was conducted to collect the field data for Rapid survey.

### **3 Baseline Environmental survey -**

The baseline data was collected by necessary monitoring at site, collection of established data through secondary agencies. The baseline data collection includes the following components or systems:

#### **3.1 Observations –**

In the two-day field survey, detail discussion with the college officials was done regarding demand of the life support system. Also, detail inspection of the total area was done for getting details of the energy, water, biodiversity, etc, in the study area.

Information collected from the college officials and the observations is as follows -

##### **3.1.1 Water –**

There is no surface water resource in the company premises. There is one yielding bore well in the premises which help in completing the water requirement of the office activities.

##### **3.1.2 Electrical energy –**

It is a college & It requires considerable consumption of electricity.

##### **3.1.3 Air –**

Air quality in the area is good. There is possibility of improvement in the quality by increasing planting density in the premises.

##### **3.1.4 Soil –**

Soil is usually differentiated into horizons of minerals and organic constituents of varying depth, which differ from the parent material below in morphology, physical properties and constituents, chemical properties and composition and biological characteristics.

Soil serves as a source of nutrients for plants and crops and also provides mechanical anchorage.

Soil in the area is in good condition. Most of the soil is back filled for gardening. More than 50% of the area is covered with plant cover. Conditioning of the soil is required to achieve better soil quality. This will help in enhancing the soil quality which will, in turn, will enhance the bio diversity in this area by strengthening the local ecosystem.

##### **3.1.5 – Bio-diversity –**

**A. Flora** - Majority of the plant species are exotic. About 50 species of plants in the area were recorded in the visit.

**B. Fauna** - More than 15 species of birds, few of butterflies were recorded in the survey.

**3.1.6 Noise –**

Noise can be defined as an unwanted sound. It interferes with speech and hearing. If intense enough, it can damage hearing, or is otherwise annoying. In general, there is almost no noise pollution in the premises.

**3.1.7 Waste Management –**

Garden waste is dumped in one corner for composting. Composting of this waste will help in improvement of the place and will reduce requirement of the fertilizers to an extent.

Waste water treatment plant was installed with help of municipal corporation. But, it is currently defunct and appropriate steps are necessary to treat the waste water.

After proper treatment, this water can be used for secondary purposes like flushing in the toilets, gardening, etc.

**4 Preliminary findings –**

**4.1 Water-**

- Captive Source – bore well
- Recharging of bore well is done & water is used for plantation
- Eco san toilets are now in use
- Recycling unit for treating wastewater has been brought into working condition

**4.2 Electrical Energy**

- Present average monthly charges – **Rs. 28,000 (Reduced from average Rs. 40,000/-)**
- Less wattage results in decrease in electric bill. Good potential for reducing average electricity bill by;
  - ✓ replaced tubes (Approx. 95%) with CFLs / LEDs
  - ✓ all monitors are now low consumption LCD monitors
  - ✓ educating staff about importance of these things

**4.3 Air**

- In general, air quality within the premises appears good
- Possibility of enhancing the air quality by improving planting density and variety in the garden as well as building
- By good housekeeping and cleanliness on terrace & in the whole premise

**4.4 Soil**

- For gardening purpose, considerable volume of soil is backfilled
- Presently in good condition
- Requires attention to retain it and its fertility. Conditioning of the soil with inhouse compost and adding external nutritive, as & when required, will help in enhancing the quality of the soil.

**4.5 Biodiversity –**

**Existing**

- About 50 species of plants
- About 15 species of birds
- Majority of the plants are exotic

**Improvement possibilities**

- Raising botanical garden is in progress
- Introduction of plants for butterfly garden is in progress
- Introduction of fishes in the water features

**4.6 Noise –**

**Existing**

- In general, quite silent, almost no noise pollution
- Background hum created by running of AC and pumps

**Improvement possibilities**

- No specific suggestion needed

**4.7 Waste management –**

**Existing**

- Considerable dry waste, including plastic, .... improper disposal
- Considerable garden waste, clippings and mowing collected in corner (enhancing capacity of composting will solve this problem)

**Improvement possibilities**

- Reducing dry waste – plastic cups, paper, etc
- Composting of garden waste for recycling in the garden thereby reducing fertilizer requirement

**5. Environment impact reduction plan–**

1. To reduce electricity consumption by 10% for next three years
2. To reduce fresh water consumption by 20% for next three years
3. To achieve higher, more efficient ecofriendly operations for the college
4. To run the office activities with minimum possible environmental impact
5. To inculcate value of Environmental Protection amongst the students, staff and management of college

## Annexures –

### Butterfly garden –

It is a very attractive concept, which helps students giving opportunity to observe different species of butterflies in a small captive area.

Butterfly gardening is often aimed at inviting those butterflies and moths to lay eggs as well. Because some plants are not fed upon by adult butterflies, the caterpillar host should also be planted for a bigger population of butterflies. Butterflies typically feed on the nectar of flowers, and there are hundreds of such plants that may be planted to attract them, depending on the location, time of year, and other factors. In addition to the planting of flowers that feed butterflies, other means of attracting them include constructing "butterfly houses", providing sand for puddling, water, and other resources or food items, including rotten fruit. This makes the place centre of attraction and it also help the biology students.

Some people only like to look at the butterflies, while others like to take pictures as well. Others try to help the butterfly population by planting native plants which rare or threatened butterflies feed on. Butterflies also serve as flower pollinators and attracting the butterflies can also assist in the pollination of nearby plants. Typically, flowers of plants that attract butterflies also attract other insect pollinators.

### Requirements –

Shrubs & creepers from,

Jasmine family, Ixora family, Hibiscus family, Bougainvillea, Citrus family, Zinnia, Tagetes (Zendu), Quisqualis (Madhumalati), Ratrani, Zizyphus, Kadhipatta, Pomegratnate, Lantana varieties, Calotropis sps., Passiflora, kalanchoe, Ipomoea varieties, Cassia varieties, etc

Trees – Bael, sitaphal, Anant, Amaltas, Ficus sps., Mango, sonchafa, amla, karanj, badam, Bhendi

### Other Ways To Attract Butterflies

**Basking** - There are various ways to keep butterflies interested in and returning to your garden. Placing a flat stone in your garden not only provides a spot for butterflies to bask to warm their wings on cool mornings but it can also add variety in texture and color to your garden.

**Puddling** - Groups of male butterflies often congregate at puddles of water to drink. Mud-puddling offers them the opportunity to get the salt and amino acids they need. You can create your own puddle by digging a shallow depression in or near your garden. Line it with plastic, fill it with sand or gravel and add water.

**Plants along the roads & in the planters along the compound wall –**

**Plants on the boundary -**

- *Ficus benjamina*
- *Alstonia scholaris* (Satwin, Saptarni)
- *Mimusops elengi* (Bakul)
- *Lagerstroemia flos-reginae* (Taman)
- *Michalia champaka* (Sonchapha)
- *Bauhinia purpurea* (Kanchan)
- *Magnolia grandiflora* (Kavathi chapha)
- *Millingtonia hortensis* (Buch, Akashjai)
- *Terminalia catapa* (Lal badam)
- *Cassia fistula* (Bahava)
- *Athocephalus kadamba* (Kadamb)
- *Ficus benghalensis* (Wad)
- *Holoptelia integrifolia* (Vavla)
- *Pongamia pinnata* (Karanj)
- *Mangifera indica* (wild mango)
- *Dillenia indica* (Karmal)
- *Syzygium cumini* (Jambhul)
- *Gmelina arborea* (Shivan)
- *Saraca asoka* (Sita ashok)

**Plants for the hedges –**

- *Lantana camara* (Ghaneri)
- *Cestrum nocternum* (Ratrani)

**N.S.S REGULAR ACTIVITIES REPORT ( 2018-19)**

Our College has two N.S.S. Units & we have enrolled 150 volunteers this year. N.S.S. Unit of our college have **organised** following programmes during 1st quarter of this academic year.

1.21<sup>st</sup> June,2018-- Yoga Din was celebrated, in co-ordination with Swami Vivekanand Kendra, Badlapur In which various yoga exercises were taught & practised for students.

Male	Female	Total	Beneficiaries
20	30	50	50

2. On 18<sup>th</sup> July,2018, an University Foundation Day was celebrated by planting trees in the College Campus.An Introduction about history of University of Mumbai was given to students.

Male	Female	Total	Beneficiaries
04	07	11	11

3. 25<sup>th</sup> July.2018: . Tree Plantation was done at the Adopted Village At Sangopita-Bendshil. Nearly 60 plants were planted in the area.

Male	Female	Total	Beneficiaries
15	20	35	35

4.On 2<sup>nd</sup> August 2018 An advisory Committee Meeting was conducted. Prof. Prashant Savdekar, N.S.S. Dist. Co-Ordinator, Ms.Meenatai Deshpande, I/C Prin. Dr.Sangeeta Pande were present for this meeting. Planning for N.S.S. activities was done in this Meeting. Discussion on How to conduct the activities also took place in this meeting. N.S.S. Leaders were also present for this meeting along with N.S.S. Officers. Before this meeting, on the same day, N.S.S. Orientation was organised, in which Prof. Prashant Savdekar,Dis.Co-Ordinator N.S.S. Oriented our N.S.S. Volunteers.

5.On 18<sup>th</sup> August A lecture on water Conservation By Mr Anand. Bhagwat,a the President of an N.G.O.,Vasundhara Sanjeevani, Thane was organised. In this program. He explained about the importance of water Conservation.

Male	Female	Total	Beneficiaries

मा. प्राचार्या

आदर्श कला व वाणीज्य महाविद्यालय,  
कुब्जगांव वयलापुर (पू.)

महोदया,

आदर्श महाविद्यालयाच्या राष्ट्रीय सेवा योजनेच्या विद्यार्थ्यांचे विशेष श्रमसंस्कार निवासी शिबिर दि. 8 जानेवारी ते 10 जानेवारी 2023 या कालावधीत लव्हाळी येथे भरले होते. सदर उपक्रमामध्ये दि. 10 जानेवारी 2023 रोजी स्वच्छ भारत अभियाना अंतर्गत राष्ट्रीय सेवा योजनेच्या विद्यार्थ्यांनी लव्हाळी गावात स्वच्छता मोहीम राबविली. विद्यार्थ्यांनी गावातील रस्ते व परिसरात साफसफाई केली.

आपल्या सहकार्याबद्दल आभार!

आपले विश्वासू.
