Excellent

Regular feedback and assessment

Yes

Integrate technology tools and resources into the classroom to enhance learning experiences and cater to different learning styles. This could involve using educational apps, online platforms, or multimedia presentations.

No

We need RRB group D books for study

Very good

Nothing all good

Present class

E learning

Provide cooling facilities in summer,fans are in proper condition

- 1) College should conduct more events to encourage the students to participate
- 2) Increase the amount of projectors in class room

Try to teach student more practically not the theory
Have to clear the basic concept of student

We need books related to syllabus

Please take ATKT examination papers for rechecking

The PIN of the projector in the smart room is damaged.

Sports activities not good

Give to One library card 2books

Nothing

Or activities in collage improving the students

Students need Magic Thokla books for Civil Services and State Services Examinations

Use computer lab in all stern

All teachers must learning to students
And college library to so beautiful and peaceful.
Garden, best cinematography auditorium room must learning, sports and much more

Teaching a all language to understand students

Use Better Gratchis and Vesully meidiy to aega student well

Kindly give more project and real time problem to solve.

E-commerce and start up teacher need to change because of poor Communication
And not giving notes in class

Thankyaa

Thank

E

Give examination important after completing chapter

Infrastructure improvement

Industrial visit every year

College should give more focus on events

All is well

- 1) provide more books in library
- 2) provide smart boards
- 3) not allowed phones during lecture

In my class, there are very few practical sessions for computer-related subjects. IT practicals are conducted only after the syllabus is completed. Even then, out of the entire syllabus, only 3-4 lectures are dedicated to practicals. Moreover, the PCs are very slow, which results in 10-20 minutes being wasted. Most of the practical topics are covered only in theory, with only about 10% actually being practiced. I also understand that the low number of students might be one of the reasons for this.

Since IT is a practical subject, more hands-on sessions should be conducted throughout the semester rather than only after completing the syllabus. Regular practice will help students understand concepts better and improve their technical skills.

The slow PCs in the lab result in a waste of time during practical sessions. If the systems are upgraded or maintained regularly, students will be able to complete their tasks efficiently and make better use of the limited practical hours.

Instead of covering most of the practical topics in theory, a balanced approach should be followed. Each topic should have a practical demonstration alongside theoretical explanations, ensuring that students gain both conceptual and application-based knowledge.

Some teachers do not explain theory subjects in detail, which makes it difficult for students to understand. Teachers should focus on breaking down complex topics into simpler parts and providing real-life examples to make learning easier.

Some teachers simply read and skip notes, especially for subjects they are not well-versed in. It would be helpful if teachers prepare in advance, attend training sessions if needed, and engage students with discussions rather than just reading notes.

Since some subjects under the Mumbai University NEP 2020 curriculum do not have books available, it creates problems in covering the portion. The university should ensure that proper study materials are provided, and teachers can also create structured notes to help students.

No.. All staff are excellent work... Principal also supportive..

Providing aclassroom

1. Interactive and Student-Centered Learning – Encourage more interactive teaching methods like group discussions, problem-solving activities, and real-world case studies to make learning more engaging and practical.
2. Technology Integration – Utilize digital tools such as smart boards, online quizzes, and learning management systems to enhance engagement and accessibility of study materials.
3. Continuous Feedback System – Establish a structured feedback system where students and

teachers can regularly share their insights and suggestions to improve teaching methods and curriculum effectiveness.

Teacher must be more friendly as like sachin dedhia sir and they must all give guidance related more curriculum activities

Improvement needed in quality of teaching

Sometimes The teacher should provide animation videos related to the concept to make it more easier for the students to understand...

And overall teaching facility is great

All are good

It's Good 😊

Teaching facility through projector

We need more books related to the ssyllabus

- 1)Use better graphics and visual media to engage students well.
- 2)Try to reach every student and ask for their doubts.
- 3)Make teaching a two way interaction

Two books should be available on the library card.

We want large black bord for teaching

Every thing is good

Good question

Use to graphics and visual media to engaga students well , try to reach every student and ask for their doubts , make teaching a two way interaction

Overall is provided Good Education for this college or Institution.

Good teaching, Good explanation and taked quickly action about wrong things

No comment

N/A

Improve

There are good teaching

Good teaching

Explain in different way

..

Teachers are very good and their teaching is also very Good

Give the guidance

All is Good

Use of more ICT Tools

Practical exposure to industrial area

More books in library

Teach more practical rather than theory

Do focus on extra circular activities.

Teaching and learning was nice and all was good

The teacher are teaching learning experiences excellent

All tight

Its very good

All very good

No suggestion

Text books

No everything is OK

Social

Good class environment

Teach more practical rather than Theory

सगळेच शिक्षक खुप छान शिकवतात. आम्हाला समजून घेऊन आमच्या अडचणी दूर करतात. तसेच वेळच्यावेळी नोट्स देतात.

The teacher's teaching skills are excellent

Smart boards in classrooms.

1 Effective use of Technology.

2 Developing a Feedback System.

3 Use of interaction Teaching Methods.

-

"We need more books in the library."

Yes our institute is over-all good about teaching mentor meeting extra cariculam activities
good english communication

Use to graphics and visual media to engaga students well, try to reach every student and ask
for their doubts, make teaching a two way interaction.

All was good

Replace our white board to new one
