134 responses

Give three observations/suggestions to improve the overall teaching-learning experience in your institution.

134 responses

No

The teaching-learning process is good but needs some improvement. Teachers should use more ICT tools like PPTs and videos. More practical exposure like internships should be provided. Regular feedback will help students improve.

Nothing

Good

No

Yes

Very good

Good

.

- 1) Make teaching more interactive and practical.
- 2) Improve student-teacher communication.
- 3) Use more technology and digital tools.

- 1) Increasing the use of smart classes and digital tools in teaching
- 2) Emphasis on field visits and demonstrations rather than just theoretical knowledge
- 3) Increasing student participation through interactive teaching and personal guidance

Interactive Teaching Methods

Teachers ko sirf lecture dene ke bajaye discussions, presentations aur practical activities use karni chahiye, jisse students ka interest badhe aur understanding better ho.

Use of Technology in Learning

Smart boards, online resources aur digital tools ka use badhaya jaana chahiye, jisse learning modern aur engaging ban sake.

Regular Feedback and Doubt-Solving Sessions

Students ke liye regular feedback system aur doubt-clearing sessions hone chahiye, jisse unki problems jaldi solve ho aur performance improve ho.

Teachers should provide more notes and clear explanations.

Guidance classes should be started for competitive exams like SET, NET, UPSC, and MPSC. More books should be added to the library.

Maximum number of books should be made available to students for studying for MPSC and UPSC exams. For example, Magick Thokla Book is important in mpSC Group B Examination.

Payal

Increase use of ICT tools like smart boards and multimedia for better understanding.

Everything is good

No suggestions

Good college overall

"Shift from traditional lecturing to active, multi-style learning that prioritizes continuous student feedback over just focusing on exams."

Increase practical and interactive learning:

More practical sessions, case studies, and real-life examples should be included to make learning more engaging and easier to understand.

All very good

To make teaching more effective and engaging, focus should be given on interactive methods, use of technology, and regular doubt-solving sessions.

The teaching-learning process is good but needs some improvement. Teachers should use more ICT tools like PPTs and videos. More practical exposure like internships should be provided. Regular feedback will help students improve.

Excellent

Always study about the students, how students doing study keep, proper information about them and most is the document and attendance of the students please properly record because I have one time issue of the attendance

1 Interactive Classes: Include more discussions, group activities, and problem-solving sessions in classes.

2 Use of ICT Tools: Teachers should use PPTs, videos, and multimedia to explain concepts effectively.

3 Skill Development: Provide workshops and extra-curricular activities for soft skills, life skills, and career preparation.

1. Use interactive teaching methods like discussions and examples to increase student engagement.

2. Take regular student feedback to improve teaching quality.

3. Use technology like videos and presentations to make learning more effective

No

- 1.Shift from Passive Lecturing to Active Learning Strategies
- 2.Integrate Digital Tools and AI for Personalized Learning
- 3.Establish Robust, Continuous Feedback and Mentoring Systems

Adopt active learning implement regular professional development for staff and enhance students feedback mechanism.

Explain through the

Provide regular feedback and doubt-solving sessions

Teachers should take time to clear student doubts and give feedback to help improve performance.

No need

Need a little improvement

Yash

-

Teaching staff are good

Adopt active learning strategies

It was good experience to me , it was gain knowledge about everything, clearing all the doubts

- 1)Increasing the use of smart classes and digital tools in teaching
- 2) Emphasis on field visits and demonstrations rather than just theoretical knowledge
- 3) Increasing student participation through interactive teaching and personal guidance

Teacher and students bonding are good , and study is excellent

1. More practical and activity-based learning.
2. Better use of technology in teaching.
3. Regular feedback and student support sessions.

Explain to students by giving examples what has been taught.

Nahi

Tanish subhash gaikar

अध्यापन रंजक करणे विविध पद्धती वापराव्यात.
तंत्रज्ञान वापरणे व्हिडिओ, प्रेझेंटेशन वापरावे.
फीडबॅक घेणे विद्यार्थ्यांच्या अडचणी समजून मार्गदर्शन करावे.

Increase use of digital teaching tools like PPTs and smart classrooms.
Provide more internship and industrial visit opportunities for practical exposure.
Improve mentor interaction and regular feedback sessions for students.

Good education Good support Good teacher

Integrate Modern Technology and Professional Development

- Observation: Technology is underutilized, or faculty lack training on modern educational tools.
- Suggestion: Invest in equipping classrooms with interactive technologies and provide ongoing, targeted training for teachers to use these tools for differentiated instruction.

Nothing else

More focus on digital learning and interactive presentations in all subjects.

Teachers should provide personalized guidance by identifying each student's strengths and weaknesses.

Very nice

Teacher staff are always better but

...

No suggestions my experience of learning and teaching is excellent

The college is very good. Excellent programs are organized occasionally. Therefore, I do not have any suggestions.

Yes it's good experience & overall teaching is good all the Professors have a good teaching

Everything comes in ending or when exam are never completing before two week of exam help a lot for preparation and also take some Revision before exam use tips for studying. It will very helpful for us to prepare exams

Improve feedback and mentorship system

Shikshen canglya aahe

Excellent

Good teaching , always aware ,focusing on student skills

Nice education and good behavior teachers for student

1. To emphasize on experiential learning and participative learning among the students.
2. To emphasize on skill based learning and to motivate entrepreneurship amongst the students.
3. To engage students in administrative and academic processes of the institution.

Make more knowledgeable staf

All good no any suggestion

डिजिटल आणि प्रायोगिक शिक्षणावर भर: पारंपारिक पद्धतीऐवजी स्मार्ट क्लासरूम्स, डिजिटल टूल्स आणि प्रात्यक्षिक (Practical) शिक्षणाचा वापर वाढवणे [४, ५].

२. शिक्षक-विद्यार्थी संवाद आणि सहभाग: अध्यापन हे एकतर्फी न ठेवता, विद्यार्थ्यांचा सहभाग वाढवणारे प्रश्नोत्तरे, गटचर्चा (Interactive Learning) आणि वैयक्तिक लक्ष देण्यावर भर देणे [१, १२].

३. कौशल्य-आधारित अभ्यासक्रम: केवळ पुस्तकी ज्ञानापेक्षा कौशल्यांवर आधारित (Skill-based) शिक्षण आणि व्यावसायिक अभ्यासक्रम समाविष्ट करणे, ज्यामुळे विद्यार्थ्यांची रोजगारक्षमता वाढेल [३, १३].

सविस्तर निरीक्षणे:

Excellent

Ok

1-Teachers should explain a concept like practical knowledge

2- college should provide active competition for growth

3- Library books should be given more than one at a time

All the teachers in the college are very good and their teaching is also good. We also enjoy learning from them. Thanks to all the teachers because you always understand all of us children.

No need for improvement

Observation:-Less use of technology

Suggestion:- Use digital tools and online resources

adarsh collage arts commerce and science

Improve the use of modern teaching methods like PPTs, multimedia, and practical examples.

Provide more opportunities for internships, field visits, and skill-based learning.

Increase interaction between teachers and students through regular feedback and doubt-solving sessions.

Best college and teaching

This is best for the Coriculer activities

-

- 1) Increasing the use of smart classes and digital tools in teaching
- 2) Emphasis on field visits and demonstrations rather than just theoretical knowledge
- 3) Increasing student participation through interactive teaching and personal guidance

1. Interactive Learning: Encourage more interactive sessions, group discussions, and hands-on activities to engage students and promote better understanding.
2. Personalized Feedback: Provide regular, constructive feedback to students, focusing on their strengths and areas for improvement, to help them grow academically.
3. Industry-Relevant Curriculum: Incorporate industry-relevant examples, case studies, and guest lectures to make learning more practical and applicable to real-world scenarios.

Overall good teaching

Everything is good. no suggestion

Lessons are often lecture-heavy, resulting in passive listening. Ensure classrooms are equipped with modern digital tools and provide regular faculty development workshops focused on using these tools to increase student engagement.

Fyba

Enhance Interactive Teaching Methods

Move beyond traditional lecture-based teaching by incorporating discussions, case studies, group work, and technology-enabled learning (like smart boards or LMS platforms). This increases student engagement and improves understanding.

Strengthen Feedback and Assessment Systems

Regular, constructive feedback (both from teachers to students and vice versa) helps identify learning gaps early. Introducing continuous assessment instead of relying only on final exams can support consistent learning.

Improve Infrastructure and Learning Resources

Upgrading classrooms, libraries, and digital resources (Wi-Fi, e-books, online journals) creates a more conducive learning environment and supports self-directed learning.

If you want, I can tailor these suggestions specifically for a school, college, or university context.

Organize more practical learning opportunities like internships, workshops, and field visits to enhance real-world understanding.

Good nature

Thank you

Teaching is very good

1) Interactive teaching methods वाढवाव्यात

शिक्षकांनी फक्त lecture न देता discussion, group activity आणि presentations घ्याव्यात, त्यामुळे विद्यार्थ्यांना विषय चांगला समजतो.

2) Digital tools आणि study material उपलब्ध करावं

Notes, PPT, recorded lectures online दिल्यास विद्यार्थ्यांना revision करायला सोपं जाईल.

Regular feedback आणि doubt-solving sessions घ्यावेत

3) विद्यार्थ्यांच्या अडचणी समजून घेण्यासाठी feedback घ्यावा आणि नियमित doubt-solving sessions ठेवावेत.

There should be open and friendly communication between teachers and students. Regular feedback sessions, doubt-solving classes, and mentoring systems can help students feel supported and improve their academic performance.

Use of Interactive Teaching Methods

Teachers should use more interactive methods like group discussions, presentations, and practical activities instead of only lectures. This makes learning more engaging and easy to understand.

Better Use of Technology

Classrooms should include digital tools like projectors, smart boards, and online resources. This helps students visualize concepts clearly and improves interest in studies.

Regular Feedback and Doubt-Solving Sessions

There should be regular feedback from students and dedicated sessions for clearing doubts. This helps teachers improve their teaching and ensures students understand topics properly.
